

Fast Track Instrument Rating

Your busy schedule makes it tough to plan "occasional" training. However, you are determined to achieve your Instrument Rating in an efficient time frame. EFA's Fast Track Program is designed for focused pilots, like you, who want to get their Instrument Rating in just 10 units of flying.

Our FAA approved syllabus trains you like the pros do. You work 1-on-1 with your dedicated CFII, fly EFA's IFR-rated aircraft and Elite PCATD ground trainer and use the Cessna Pilot Center Computer Based Instruction kit to complete knowledge components on your home or office computer. The 10 "full units" of training at EFA concentrate information, eliminate interruptions, and increase retention from lesson to lesson.

One month from now, you could have your Instrument Rating. Let our fast track priority scheduling and four decades of experience work for you.

EFA Prepay Incentive

You can pay as you fly... or you can earn a bonus for block payments:

- Pay \$500 to \$999, earn 3% bonus
- Pay \$1000 or more, earn 5% bonus

Prepayment bonus is credited to your account and may be used for any EFA instruction, aircraft rental or pilot supply purchases. Not valid for 1 time rentals. Refer to payment and refund policies for complete information.

Instrument Fast Track Training Costs

	Cessna 172SP		Cessna 182	
	per unit	sub total	per unit	sub total
10 days Instruction*	\$500	\$5000	\$500	\$5000
31 Hours Airplane	\$145	\$4495	\$180	\$5580
13.5 Hours Simulator	\$45	\$608	\$45	\$608
1 Instrument Flight Kit		\$329**		\$329**
Total		\$10,432		\$11,517
Prepayment savings on installments of	10/\$1000	\$500	11/\$1000	\$550
Total Cost		\$9932		\$10,967

Average costs based on above instruction, flying and simulator times. Actual time will vary by student.

*Unit price quoted is a full day (8hrs) with a Senior Instructor (SI). Half day (4hrs) SI rate \$250. EFA Instructor full day rate \$400, half day rate \$200.

**6.25% sales tax not included.

Instrument Pilot Flight Kit

You have your Private Pilot Certificate and you've decided to become an Instrument Rated Pilot. You will increase your safety in flight and develop skills for various flying conditions.

The interactive, computer-based Instrument Pilot Instruction Kit from Cessna will help you master the various knowledge components required to become an Instrument Rated pilot: instrument scanning techniques, IFR flight planning, advanced weather review, instrument navigation skills, advanced aircraft system knowledge. You'll watch presentations by top aviation educators, see dramatic, enlightening in-flight footage, take interactive quizzes, learn interesting trivia, and prepare for upcoming lessons before you ever climb into the airplane. Study at your pace on your personal computer and we review your progress during your flight training visits.

EFA also has for sale a number of industry-standard flight instruction books and helpful pilot accessories. Your instructor will introduce you to other helpful training books that are for sale.

EFA has everything you need to advance your flying skills and become an Instrument Rated Pilot. Please inquire about our "Fast Track" Instrument program if you would like an accelerated syllabus.
